- **Teamwork**
- **Creativity**
- **Stress managment**

LANGUAGES

- **Polish - native**
- **English - B2**

HOBBY

- **Bodybuilding**
- **Football**
- **Coding**

ABOUT

Being a 3rd year student at the University of Silesia, I have had the opportunity to learn and master many different technologies when it comes to web development. I am passionate about learning new technologies and data structures as well as solving problems. I have completed some projects for university-related courses, but I look forward to gaining more experience in the near future by working with experienced developers.

EDUCATION

University of Silesia, Engineer

October 2021 - February 2025 (expected graduation)

Field: Computer Science

TECHNOLOGIES

- **JavaScript**
- **CSS/SASS**
- **Firebase**
- **Figma**
- **React.js**
- **HTML**
- **Tailwind**
- **Node.js**
- **Next.js**
- **Redux**
- **SQL**
- **Express.js**
- **Electron.js**
- **TypeScript**
- **MongoDB**

WORK EXPERIENCE

Search Query Evaluator, Telus International

2022 May - 2023 January

Depending on the assignment I am rating how useful the top search results are.

Front-end developer Internship, Prosta Edukacja

2023 May - 2023 August

Developing educational platform. Creating new functionalities, fixing bugs in a five person developer team using React and TypeScript and working with Next.js on landing page.

SELECTED PROJECTS

- **Project 1 - "REACTINHO"**

   This project was created as part of my react learning journey. This web app allows you to make todo list with tasks you need to do, check currently weather, create meme or even check what type of developer you are. Application is fully responsive.

  Link: https://github.com/Peterr181/REACTINHO

- **Project 2 - "AILOVER"**

   This website is mainly about artificial intelligence. This is simple website where user can search for their favourite AI tools such as chat GPT or something else. User can also add their own website to the database. and create his own account on website.
